

Debt Service

Agency Overview

Agency Overview

The agency accounts for citywide appropriations that support general obligation loan authorization principal and interest payments for the City other than TID or enterprise debt. All general obligation notes and bonds payable are backed by the full faith and credit of the City. Notes and bonds in the governmental funds will be retired by future property tax levies or tax increments accumulated by the debt service fund. General obligation long-term debt comprises the largest share of outstanding debt to the City.

The 2021 Executive Budget appropriation for general obligation borrowing for new projects is \$116.2 million, \$20.5 million more than the 2020 appropriation. The General Fund general obligation debt service for 2021 is \$46,575,470 in principal and \$9,337,354 in interest for a total of \$55,912,825, a \$1.49 million increase from 2020, or 2.74 %. The General Fund general obligation debt service for 2020 was \$45,742,039 in principal and \$8,680,868 in interest for a total of \$54,422,907.

As a result of the annual debt review by rating agencies, the City has a Aaa bond rating, the highest quality rating available with Moody's Investors Services.

The debt service fund has advanced amounts to various enterprise funds and component units to fund the repayment of long-term liabilities. Repayment schedules have been established and interest is being charged based on the repayment schedules.

The City of Madison has established a policy to remove from the Capital Budget those items with a useful life of less than the repayment term of General Obligation debt (usually ten years). Those items should be considered in the Operating Budget under MGO 4.02(6)(c)(3).

In December 2012, the Common Council created MGO 4.17 to prohibit the use of unused balances in the debt service fund for operating expenses. The Ordinance states: "In any year when general debt reserves are applied to reduce general fund debt service, an amount at least equal to the general debt reserves applied must be directly appropriated from the general fund for capital projects, unless the Common Council, by a separate vote of two-thirds (2/3) of all members during approval of the budget, votes to do otherwise."

Under Wisconsin State Statutes, the outstanding general obligation long-term debt of a municipality may not exceed 5% of the equalized property value of all taxable property within the city's jurisdiction. At the end of 2019, applicable debt of the City totaled \$521.4 million or 34% of the maximum legal limit of \$1.5 billion.

Revenue bonds are payable only from revenues derived from the operation of the responsible fund. This agency does not include revenue obligations for the enterprise operations of the Water Utility or the Sewer Utility. Revenue obligations of the City's enterprise operations are provided in the respective budgets for these funds.

2021 Budget Highlights

The 2021 Executive Budget includes funding for:

- The General Fund general obligation debt service is \$46,575,470 in principal and \$9,337,354 in interest for a total of \$55,912,825.
- Under the General Obligation Debt Service Schedule, general debt reserves reflect \$7.9 million of reoffering premium received from the 2020 debt issuance. Under Wisconsin Statutes, reoffering premium amounts must be used to pay debt service. The \$7.9 million of 2020 premium is allocated in the Debt Service Schedule as follows -- \$2,000,000 to pay Transit Utility debt service in 2021, \$500,000 to pay Fleet Service debt service in 2021, and \$5,378,042 to pay General Fund debt service in 2021.
- Under MGO 4.17, whenever an amount is applied in general debt reserves to reduce general fund debt service, an equal amount must be directly appropriated in the general fund for capital projects, unless the Common Council, by a separate vote of two-thirds of all members during approval of the budget, votes to do otherwise. The 2021 Executive Operating Budget appropriates \$905k from the general fund for capital projects (see Direct Appropriations). This is \$4.5 million less than the amount applied in general debt reserves to reduce general fund debt service. As such, approval of the lower direct appropriation amount for capital projects requires a separate two-thirds vote of the Council during adoption of the 2021 operating budget.

Service Overview

Service: Debt Service

Citywide Element: Effective Government

Service Description

This service accounts for the interest and principal costs and payments of the general obligation notes and bonds issued by the City to fund capital projects other than TID or enterprise debt.

Major Budget Changes

- The 2021 Executive Budget appropriation for general obligation borrowing for new projects of \$116.2 million is \$20.5 million more than the 2020 appropriation.
- The General Fund general obligation debt service is \$46.6 million in principal and \$9.3 million in interest for a total of \$55.9 million.
- Interest earnings are \$900,000 lower than 2020 to reflect the current investment market.

Activities Performed by this Service

- Details of the projects funded by the Debt Service Fund are included in the 2021 Executive Capital Budget.
